All – attached is a document which outlines the comms capabilities at the GKM site at the time of the incident, as well as enhancements which have occurred post-event.

Mathy had asked about this when he was on the ground on Friday. It will likely be useful for his hearing prep.

Note: We are not sending this directly to him – so please share at the right time.

Hi Hays – I added a bullet regarding the satellite phone being staged at the Red and Bonita mine site the day of the release. Please review and let me know if this is accurate. Craig and David – let me know if you have additional edits. Thanks!
